

ScandArabian Art

The Art Atmosphere Experience

Creative workshops where movement, mark-making, colour, and conversation become a shared artistic moment.

ScandArabian Art workshops are artist-led atmosphere experiences for groups who want creativity, connection, beauty, and meaningful participation. Each session combines contemporary art practice with guided expression, allowing participants to enter the world of ScandArabian Art through movement, drawing, painting, and shared making.

For corporate wellbeing, cultural events, hospitality, private groups, schools, and community programmes.

- Further information and instructions received upon registration and receipt of payment.

1. Art & Movement

An embodied creative experience combining gentle movement, gesture, music, and mark-making. Participants translate energy, emotion, and sensation into expressive visual form.

2. Colour Painting

A guided acrylic painting experience exploring colour, texture, composition, and personal expression. Participants create their own artwork in a supportive and inspiring atmosphere.

3. Line & Gesture

A contemporary drawing workshop focused on line, rhythm, observation, and expressive mark-making. Participants discover how simple lines can carry movement, emotion, and atmosphere.

The workshops are delivered by contemporary art company ScandArabian Art, founded by Maryam Aljanahi; a Bahraini artist based in Finland, whose work has been exhibited extensively in global settings and whose work has been shaped by a life lived across cultures, languages, and geographies. Her lived and creative experiences are brought into her teaching practices and utilised to support others in their creative journey.
